

Excel - “Normal”

Collection of all crimes

Field	Meaning
Reported by	The force that provided the data about the crime.
Falls within	At present, also the force that provided the data about the crime. This is currently being looked into and is likely to change in the near future.
Longitude and Latitude	<p>The anonymised coordinates of the crime. Represents the approximate location of a crime, not the exact place that it happened.</p> <p>Each map point is specifically chosen so that it:</p> <ul style="list-style-type: none"> • Appears over the centre point of a street, above a public place such as a Park or Airport, or above a commercial premise like a Shopping Centre or Nightclub. • Has a catchment area which contains at least eight postal addresses or no postal addresses at all. <p>When crime data is uploaded by police forces, the exact location of each crime is compared against this master list to find the nearest map point</p>
LSOA code and LSOA name	References to the Lower Layer Super Output Area that the anonymised point falls into, according to the LSOA boundaries provided by the Office for National Statistics.
Crime type	One of the crime types listed in the Police.UK FAQ .
Last outcome category	A reference to whichever of the outcomes associated with the crime occurred most recently. For example, this crime 's 'Last outcome category' would be 'Formal action is not in the public interest'.
Context	A field provided for forces to provide additional human-readable data about individual crimes. Currently, for newly added CSVs, this is always

	empty.
--	--------

Excel - “Outcomes”

Referring to previous uncompleted cases, and giving the updated outcome. Cases are identified by the CrimeID

Field	Meaning
Outcome Type	Reference to the outcome for initially “unresolved”, “under investigation”, or “awaiting court outcome” in *Excel - “Normal”*. Sometimes there are duplicates/redundant information

Excel - “Stop and Search”

Collection of “Stop and Search” incidents, that could potentially be related to an operation

Field	Meaning
Type	Whether this was a 'Person search', a 'Vehicle search', or a 'Person and Vehicle search'
Date	When the stop and search took place. Note that some forces only provide dates for their stop and searches, so you might see a disproportionate number of incidents occurring at midnight.
Part of a policing operation	Whether this stop and search was part of a policing operation
Policing operation	The name of the operation this stop and search was part of
Latitude,Longitude	*Same as Excel - “Normal”*
Gender	Human-readable gender of the person stopped, if applicable and provided
Age range	The age range of the person stopped at the time the stop occurred
Self-defined ethnicity	The self-defined ethnicity of the person stopped
Officer-defined ethnicity	The officer-defined ethnicity of the person stopped

Legislation	The power used to carry out the stop and search
Object of search	The reason the stop and search was carried out
Outcome	The outcome of the stop. False if nothing was found, an empty string if no outcome was provided.
Outcome linked to object of search	Whether the outcome was related to the reason the stop and search was carried out, as a boolean value (or null if not provided)
Removal of more than just outer clothing	Whether the person searched had more than their outer clothing removed, as a boolean value (or null if not provided)
